

SECOND INTERNATIONAL NANOTECHNOLOGY CONFERENCE ON COMMUNICATIONS AND COOPERATION

Speaker's Biography

Minoo Dastoor, Senior Advisor, Office of Aerospace Technology NASA, Washington, D.C

A member of the senior staff at Caltech's Jet Propulsion Laboratory, he is currently on a special assignment at NASA to develop and coordinate the Agency's Nano/Bio Technology Plan. A central feature of the Plan is to advance technologies that exploit the huge potential resulting from the convergence between nanotechnology, biology and information systems. The Plan focuses on three areas: 1) nanomaterials, 2) nanoelectronics and information technology, and 3) sensors and microspacecrafts. Dr. Dastoor is the NASA representative on the National Nanotechnology Initiative Subcommittee.
